THE ROAD TO POOR FARMING.

As the road to poor farming is not generally understood, though it is a well known fact, we thought it well to give a few hints to the farmer, and to the farmer's wife, for the common benefit.

1. Invest all your capital in land, and run in debt for it.
2. Hire money to stock your farm.
3. Have no faith in your own business, and be always ready to sell out.
4. Buy new cows, sows, horses, pigs, and sheep, and keep them.
5. Feed hay and mangel-worms constantly, in order to keep your stock fat; they will then be ready to sell at a high price.
6. The liberal of money (freely) whenever you can need it; it is cheaper than hay or manure to keep the land, and pounds on all the grass.
7. Select such calves for stock as the best of the breed, and run in debt for them.
8. Have no faith in your own business, and be always ready to sell out.
9. Buy new cows, sows, horses, pigs, and sheep, and keep them.
10. Feed hay and mangel-worms constantly, in order to keep your stock fat; they will then be ready to sell at a high price.
